I am a self-taught software developer who switched to programming after completing a M.A. History. I enjoy taking apart algorithms and heuristics to see how they work and figure out how to apply them to something completely different. I am seeking to get into a job where I can get feedback from experienced developers, improve my knowledge with real-world projects, and learn creative engineering solutions to real challenges.

Skill Set

Disciplines
Languages
Environments

Web-Development, Data Transformation, Testing, Agile/Sprint Planning

Python, Java, C, C#, JavaScript, HTML, CSS, Bash Scripting

Linux, Windows, Visual Studio, VSCode, IntelliJ, Oracle VM VirtualBox, Compiler Explorer, Google Cloud

Platform

Tools

Git, Maven, Spring Boot, Apache Camel, JPA, Hibernate, H2 SQL, Saxon XSLT, Jackson XML/JSON, JUnit5

Projects

Financial Trade Message Router - GitHub: otrade-message-router

Jan. 2024

Aug. 2022

Jul. 2022

Takeaways: TEST1; TEST2; TEST3

Languages and Tools: TEST1, TEST2, TEST3

A financial trade routing system built for a practical development exercise designed by a senior developer who worked in that industry. It was built in a Java/Camel based tech stack and supported: XSLT based XML conversion, JPA/Hibernate based database management, JSON based application configuration, and a JUnit based testing suite. As part of the exercise, I was wholly responsible for designing the routing application, including the evaluation, selection, and integration of 3rd party technologies.

Highlights:

- TEST3

Web-Development Projects

Calculator Webpage - GitHub: @calculator-page

Takeaways: TEST1; TEST2; TEST3

Languages and Tools: TEST1, TEST2, TEST3

My implementation of the 'Project: Calculator' from The Odin Project's 'Foundations' course, with all 'extra credit' assignments implemented a well as a history tracker.

Highlights:

• Features: Keyboard inputs, built-in error handling, and history tracker.

Project Description: @TheOdinProject

Etch-a-Sketch Webpage - GitHub: @Etch-a-Sketch

Takeaways: TEST1: TEST2: TEST3

Languages and Tools: TEST1, TEST2, TEST3

My implementation of the 'Project: Etch-a-Sketch' from The Odin Project's 'Foundations' course, with additional functionality to allow user to input 'pixel' count of Etch-a-Sketch display. All while carefully styled to look like a classic Etch-a-Sketch.

Highlights:

• Features: Styled like classic Etch-a-Sketch, user can set 'pixel' count.

Project Description: @TheOdinProject

Rock Paper Scissors Webpage - GitHub: @UI-rock-paper-scissors

Jun. 2022

Takeaways: TEST1; TEST2; TEST3

Languages and Tools: TEST1, TEST2, TEST3

My implementation of the 'Project: Rock Paper Scissors' from The Odin Project's 'Foundations' course, with additional functionality to display game on webpage with images of player choices.

Highlights:

• Features: Displays images of player inputs with delay to keep surprise.

Project Description: @TheOdinProject

Python Projects

Budgeting App Project - GitHub: @Budget-App-Project

Takeaways: TEST1; TEST2; TEST3

Oct. 2021

Languages and Tools: TEST1, TEST2, TEST3

My implementation of the 'Build a Budget App Project' from freeCodeCamp's 'Scientific Computing with Python' course.

Highlights:

• Features: Tracks debts and credits to account, displays percentage spent by category as bar chart.

Project Description: @freeCodeCamp

Certifications

Google IT Automation with Python - Google Cloud

Jul. 2021

Online non-credit Professional Certificate authorized by Google and offered through Coursera.

Highlights:

- Automating Real-World Tasks with Python
- Using Python to Interact with the Operating System
- Troubleshooting and Debugging Techniques

Coursera Certificate ID#: LTPLSJNZEA8P

Scientific Computing with Python - freeCodeCamp

Oct. 2021

FreeCodeCamp certification covering the fundamentals of Python up to complex data structures, networking, relational databases, and data visualization.

Highlights:

- · Networking with Python
- Regular Expressions
- · Relational Databases and SQLite

freeCodeCamp Certificate ID#: zljett-scwp

Preparing for Google Cloud Certification: Cloud Engineer – Google

Dec. 2021

Online non-credit Professional Certificate authorized by Google and offered through Coursera

Highlights:

- Essential Google Cloud Infrastructure: Core Services
- Elastic Google Cloud Infrastructure: Scaling and Automation
- Architecting with Google Kubernetes Engine: Foundations

Coursera Certificate ID#: 23D7RQW57S2G

Education

Master of Arts - History

Dec. 2020

Wright State University - Fairborn, OH

Minors: TEST1; TEST2; TEST3

TEST Lorem ipsum dolor sit amet consectetur adipisicing elit. Aperiam ex minus debitis at hic, laboriosam laborum aut quia.

Highlights:
